F: Float threads on the white field (a) vs walk stitches (b): does a dark stitch show? Snip the float instead?
E: Floats (a) vs lock knots (b). P and R counters open or filled? 0.25 mm letter gaps open on the cloth?
J: Same as E, on a cap-sized typed name: floats (a), knots (b), letters legible, breaks.
D: Gap between AND DRONE and THERMAL / the dome (crowded, touching?), column width vs the pro's 1.26, legibility.

Better of F: (a) / (b) Better of E: (a) / (b) Better of J: (a) / (b)

Drone: which height and weight reads best? (a) / (c) / (d) / (e)

Flip cut_every_jump and cutEveryJump ON? Y / N

Move the bold factor to 2.0? Y / N Narrow the halo to 0.3? Y / N

Every number is a candidate until this is sewn (ROADMAP gate 1). Sew in the same sitting as card v7, beside the pro's Fremont patch.
